Hard Skill

- Core Java
- SQL
- Linux
- HTML
- CSS
- Java Script
- REACT JS
- Bootstrap
- jQuery

Soft Skill

- Keen listener
- Decision making
- Communication
- Multi-tasking
- Leadership

Languages

- English
- Hindi
- Kannada

About Me

A highly motivated and detail-oriented software engineer with a solid 2-year track record in the IT industry. My journey has been dedicated to mastering web development technologies, including HTML, CSS, JavaScript, and React JS. Alongside my frontend prowess, I bring proficiency in Java to the table, allowing me to craft holistic solutions that seamlessly connect frontend and backend.

Professional Experience

LTIMINDTREE– Software Engineer

August 2021 – Present

- Release Lifecycle Management (August 2021 – Present)
 - I'm contributing to Application Release Automation engagement according to project requirements.
 - Specifically involved in packaging, building, and deploying applications across release environments like DEV, UAT & PROD.
 - Supporting end-to-end automation of CICD pipelines for application stacks like Oracle, MSSQL, Openshift, Websphere, Tableau, Abinitio, and Autosys in enterprise cloud infrastructure
 - Experience on platforms like Jenkins, Bitbucket, BMC RLM, and ServiceNow.
 - **Skills: Continuous Integration and Continuous Delivery (CI/CD), Jenkins, Linux, SQL, BitBucket.**
- Kore-AI Chatbot (July 2022– Present)
 - Developed chatbot solutions using the Kore AI platform to automate customer support and enhance user experience.
 - Collaborated with cross-functional teams to gather requirements, design conversational flows, and develop chatbots.
 - Implemented JavaScript functionality to enhance chatbot capabilities, including dynamic responses, and user input validation.
 - Created and maintained HTML templates for chatbot interfaces, ensuring responsiveness and accessibility across different devices.
 - Conducted testing and debugging of chatbot interactions, addressing issues related to user input handling, intent recognition, and natural language processing.
 - **Skills: Kore-AI, JavaScript, HTML, CSS, MS Excel, Dialogue Flow.**

Achievements

- I have assisted in conducting a successful audit, leading to recognition and appreciation from the audit team for contributions to process improvement and accuracy.
- Played a crucial role in successfully deploying a chatbot, earning recognition for facilitating efficient customer interactions and enhancing user experience.

Education

Course	University	Institution	Year	CGPA/Percentage
Bachelor Of Engineering- Electronics and Communication	Visvesvaraya Technological University (VTU)	Global Academy of Technology	2017-2021	9.23
12th - PCM	CBSE	Presidency Global School	2016	69.20
10th	CBSE	Holy Mission Secondary School	2014	8.4

Other Experience

- Intern – BSNL Varanasi

July-August 2020

- Acquired hands-on experience in networking, gaining practical insights into configuring and troubleshooting network equipment.
- Gained proficiency in the basics of communication systems, including data transmission principles and protocols.
- Collaborated with the team on various projects, contributing to implementing efficient networking solutions.
- **Skills: Fiber Optics, Networking, WiFi**

- Paper Publication

- Design and implementation of 16-bit 6T SRAM using 45nm, 90nm, and 180nm CMOS technology in International Research Journal of Engineering and Technology (IRJET) Volume 8 Issue 7 July 2021.

- Projects

- Design and implement 16-bit 6T SRAM in CMOS and FinFET Technology using Cadence Tool.
- Fire Fighting Robot

Courses and Certifications

- HackerRank certification in CSS.
 - **Skills: CSS**
- HackerRank certification in Java 8.
 - **Skills: Java**
- The Complete Web Development Bootcamp – Udemy (ongoing)
 - **Skills: HTML, CSS, Bootstrap, Javascript, DOM, JQuery, React, Git, Github, Linux**
- Java Basics course from GeeksforGeeks
 - **Skills: Core Java**
- Learning How to Learn: Powerful mental tools to help you master tough subjects –Coursera
 - **Skills: Time Management, Communication skills**
